

My Chamber Story

Hello,

My name is Dr. Brenda Huser and I would like to introduce you to my Berea Chamber of Commerce.

I have been a member of the Chamber since opening Chiropractic Health Solutions in 2005. In fact, I joined the chamber before I opened the doors of my new business. Being new to town, I wanted to network with other professionals and business owners while promoting my business services.

Through my involvement in the Spoonbread Festival, Chamber planning committees, a member of the Board of Directors, the Executive Committee and Chamber president in 2013, I have seen my business grow by leaps and bounds during the last ten years.

As an active member of the Chamber and supporter of community events, I appreciate the opportunity to exchange ideas with other business owners at the numerous networking events that the Chamber sponsors throughout the year. Additionally, I appreciate the weekly Chamber communications via email and the membership directory on the website is a nice business resource.

Please make plans to attend a Chamber meeting and learn how your business can benefit from my Chamber!
